

Yousician Strategic Environment Mapping

A broad, current ecosystem map around Yousician with explicit top actors, curated market news, 28 key-player profiles, Appfigures export gap handling, claim-level source QA, relationship completion fields and review-gated refresh mechanics.

96

tracked players

28

key-player profiles

48

board timeline moves

185

claim-source rows

16

Appfigures request rows

240

source checks logged

Credentialed Appfigures export not available in this package; public app-store proxies are labelled and must not be treated as Appfigures.

Executive Summary

The ecosystem is broader than direct competitors. It spans learning apps, song/practice ecosystems, hardware-backed beginner funnels, teachers, schools, creator educators, hobby software, AI music and audio companies, rights owners, media/cultural drivers, investors, awards and public funding.

v3.2 makes the remaining uncertainty explicit: Appfigures is still missing, but the export pack is ready; public app-store proxies are labelled; hard claims are mapped to sources; market moves are curated into board timeline vs appendix context; and all 28 key players now have compact profile pages.

Executive Synthesis: Direct Answers And Top Actors

Chris-exact framing: the answer is not a competitor list. It is a map of the actors that influence learning, practice, creation, discovery, trust, rights, capital and culture around Yousician.

The 10 Actors / Clusters That Matter Most

Rank	Actor Or Cluster	Primary Influence Layer	Guiding Question Answered	Priority Reason	Board Use Status	Next Validation Step
1	Suno	AI creation and rights risk	Music as a hobby; strategic environment	Suno is the clearest signal that music participation can move from learning an instrument to prompting, generating and sharing music, while also triggering rights and licensing risk.	Usable as a strategic signal; do not use as an adoption or revenue ranking without validated metrics.	Confirm latest funding, litigation status and rights-owner positioning before board use.
2	Music.AI / Moises	AI practice utility and creator tooling	Music learning; music as a hobby	Moises connects AI directly to practice utility: stems, isolation, transcription and creator workflow reduce friction between song discovery and playing.	Usable as a capability and ecosystem signal; not performance-ranked yet.	Import Appfigures and verify user/reach claims from official or investor-grade sources.
3	Simply / JoyTunes	Direct app-based learning benchmark	Music learning; who is successful	Simply is the closest mobile learning benchmark for onboarding, motivation, subscription learning and beginner conversion.	Do not rank as successful by performance until credentialed Appfigures data is imported.	Run credentialed Appfigures export for Simply Piano and Simply Guitar.
4	Ultimate Guitar / Muse Group	Song-practice habit and repertoire ownership	Music learning; music as a hobby	Ultimate Guitar controls a major song-to-practice surface: tabs, chords, community and repeated practice intent.	Usable as a category-influence signal; not yet a quantified scale comparison.	Validate traffic, app performance and Muse Group ownership/source claims.
5	BandLab	Creation community and hobby expansion	Music as a hobby; strategic environment	BandLab represents the path where hobbyists create, collaborate and publish rather than only learn or practice.	Usable as ecosystem position; avoid quantified reach claims unless sourced.	Validate platform reach, product changes and AI/creator tooling claims.
6	TikTok / YouTube music discovery	Discovery, demand creation and creator trust	Music as a hobby; music learning	These platforms shape what beginners want to play and which creators they trust before a learning product is considered.	Usable as demand-generation layer; creator reach table still needs social exports.	Complete TikTok/Instagram/YouTube creator reach exports and average-view validation.
7	Fender / Gibson / Yamaha hardware ecosystems	Instrument access, bundles and branded learning funnels	Music learning; strategic environment	Hardware brands can turn instrument purchase, setup, app onboarding and lesson subscription into one beginner journey.	Usable as ecosystem/partner layer; not as partner pipeline without Yousician input.	Confirm internal relationship owners and Appfigures for Fender Play/Gibson App where relevant.
8	Splice	Paid creator tools and rights-aware workflow	Music as a hobby; strategic environment	Splice shows that hobby participation can become paid creator workflow, sample access and production learning.	Usable as creator-tool context; avoid scale claims without source validation.	Validate current AI/sample/product positioning and creator reach metrics.
9	ABRSM / Trinity / School of Rock education layer	Trust, curriculum, certification and teacher/parent influence	Music learning; strategic environment	Education bodies and school networks shape credibility, progression, parent trust and teacher recommendations.	Usable as trust/benchmark layer; not as relationship map until internal fields are filled.	Prioritize by beginner influence, geography and feasible relationship path.
10	Spotify / labels / rights infrastructure	Rights, artist data, repertoire and AI governance	Music as a hobby; strategic environment	Rights owners and music platforms set the permission, repertoire and artist-authenticity context for AI, songs and learning content.	Usable as external environment signal; do not infer Yousician relationship or licensing status.	Confirm current rights-policy position and internal licensing relationship fields.

Who influences music learning?

Direct learning apps, hardware-backed ecosystems, song/practice utilities, creator educators, teacher organizations and wider learning platforms. The closest app-based players still require Appfigures before performance ranking.

Who is successful?

Success is measured through app-store performance, habits, repertoire/community ownership, creator trust, hardware distribution, AI utility adoption, funding and market momentum. Revenue/download conclusions remain blocked without credentialed Appfigures.

Who influences music as a hobby?

TikTok, YouTube, Spotify, creator tools, tab/notation platforms, artists, viral songs, media and AI-generation tools shape what people want to play, make and share.

Who shapes Yousician's strategic environment?

AI companies and rights owners, learning apps, hardware brands, creator platforms, publishers, investors, awards/funding bodies and education benchmarks jointly shape the environment.

Chris Board-Use Readiness Gate

Board-use rule: this package is discussion-ready, but Appfigures performance ranking and internal relationship claims remain blocked until the required Yousician inputs are added.

Send / Review / Blocked Summary

Readiness Bucket	Meaning For Chris	Safe Words	Avoid Words	Owner Placeholder
Ready to discuss	The package can be opened as an executive ecosystem discussion artifact.	Discussion-ready; review-gated; Appfigures pending; internal relationships to be completed by Yousician	Fully live; fully self-updating; Appfigures-complete; relationship-complete	Strategy / Research Ops
Review-only before Board use	Hard claims are traceable but still require a final claim/source skim before being quoted externally.	Source-mapped; confidence-labelled; requires final review for hard claims	Verified by default; automatically accepted; exhaustive	Research / Strategy
Blocked until input	Appfigures performance and internal relationship claims cannot be finalized from public research alone.	Credentialed export required; owner input required; no metric invented	No relationship; revenue leader; download leader; market-share conclusion	Yousician credential owner / relationship owners

Operational Gates

Gate	Readiness Status	Chris Safe Language	Blocked Claims	Required Input	Next Action	Board Use Rule
Executive discussion package	Ready to discuss	Use as an executive ecosystem map with explicit validation gates.	Do not describe the package as fully live or fully Appfigures-populated.	None for discussion use.	Open the deck first; use the report/workbook for backup evidence.	Safe for discussion if Appfigures and relationship caveats remain visible.
Appfigures performance ranking	Blocked until credentialed export	16 app rows are ready for Appfigures export; 16 credentialed rows are currently populated.	Revenue, downloads, rank trends, review velocity, country mix and 12-month performance comparisons.	Credentialed Appfigures export/API output for the request-pack rows.	Export required fields, run <code>import_appfigures_export.py</code> with <code>--credentialed</code> , then rebuild outputs.	No app-based success ranking by revenue/download/rank until populated from credentialed Appfigures.
Internal relationships	Blocked until Yousician owner input	28 relationship rows are prepared for internal completion.	Any claim that Yousician has, lacks, had, or should use a relationship with a player.	Confirmed owner, confirmed relationship, sensitivity, last contact date and suggested next step.	Assign owners and fill only internally confirmed relationship fields.	Never write 'no relationship' unless internally confirmed.
Hard claims	Review-only before board use	157 hard claims are mapped to source/review action rows.	Ownership, funding, M&A, quantified reach, AI feature and Appfigures-like performance claims without source/date/confidence review.	Source owner checks the claim-source matrix before extracting board-facing snippets.	Review hard-claim rows and mark any weak/private-company claims for revalidation.	Every hard claim needs source URL, source confidence, date and review action.
Refresh queue	Review-gated	15 open refresh checks remain surfaced and are not automatically promoted into final claims.	New or changed source content until manually reviewed.	Human source review and claim-update decision.	Review open queue rows; accept, reject or convert to source backlog.	Self-updating database can detect changes; final PDF/deck remains human-approved.
Creator reach validation	Partially ready	26 creator rows exist; 23 rows still need TikTok/Instagram or average-view validation.	Creator reach comparisons across platforms where TikTok, Instagram or average views are pending.	Platform exports or manual profile checks for creator reach fields.	Prioritize beginner-relevant creators and validate cross-platform reach.	Use YouTube/public proxies directionally; avoid precise cross-platform ranking until validated.
Market moves timeline	Ready with source review	48 news-grade moves are in the board timeline; weaker context remains in appendix data.	Static product/context signals should not be presented as 'who made the news' items.	Final skim of source URLs before live presentation.	Keep Grade A/B news in slides; leave Grade C context in appendix.	Main timeline should show events, launches, funding, M&A, partnerships, rights conflict or awards only.
Awards and funding operations	Ready for owner assignment	12 award rows and 12 funding rows are operationalized with fit, effort and next action fields.	Do not imply applications are in progress unless owners confirm.	Owner assignment and deadline verification before action.	Prioritize high-priority awards (3) and funding rows (0).	Use as opportunity tracker, not as confirmed application pipeline.

Chris Decision Gates

Use rule: these are not weaknesses to hide. They are the approval gates that prevent Appfigures, relationship, creator-reach and private-company claims from being overstated.

Gate	Status	Why It Matters For Chris	Blocking Input	Decision Needed	Board Use Rule
Appfigures performance gate	Blocked / credentialed export required	The brief explicitly asks for Appfigures where possible; without it, app-based success cannot be ranked by revenue, downloads, ranks, review velocity or country mix.	Credentialed Appfigures export for 16 request-pack rows.	Export now, accept caveat, or remove performance ranking from Chris-facing claims.	No app revenue/download/rank conclusion without credentialed export.
Internal relationship gate	Blocked / Yousician owner input required	Relationship fields are part of the brief, but external research cannot infer relationship status safely.	Owner, confirmed relationship, sensitivity, last contact and suggested next step.	Assign owners and fill internal relationship fields.	Never write 'no relationship' unless internally confirmed.
Creator reach gate	Partially complete / platform export required	Influencers and creator educators are named in the brief; names alone are not enough for a strategic layer.	YouTube, TikTok, Instagram and average-view exports or validated public source snapshots.	Validate reach fields or present creator layer as directional.	Use only public proxy reach unless platform export is added.
Private-company ownership and funding gate	Partially complete / paid database or direct validation required	Ownership, investors and funding are high-risk claims if based only on incomplete public pages.	Crunchbase, PitchBook, Dealroom, filings, official press releases or direct company validation.	Validate hard claims before board/investor excerpts.	Claims marked Pending/Low remain caveated in main narrative.
Awards/funding execution gate	Prepared / owner decision required	The tracker is only useful if someone can decide submit, monitor or deprioritize.	Owner, eligibility check, next deadline, effort estimate and submit/no-submit decision.	Select 3-5 highest-priority opportunities or keep as monitoring appendix.	Treat as opportunity tracker, not a recommendation list.
Final PDF / slide publication gate	Review-gated / human approval required	A living database can refresh, but Chris/Board-facing claims should not update automatically without review.	Review queue closed, Appfigures/import caveats acknowledged, relationship fields reviewed.	Approve deck/report for discussion or hold for Appfigures/internal fields.	Use the deck as current-state discussion material; use workbook for proof.

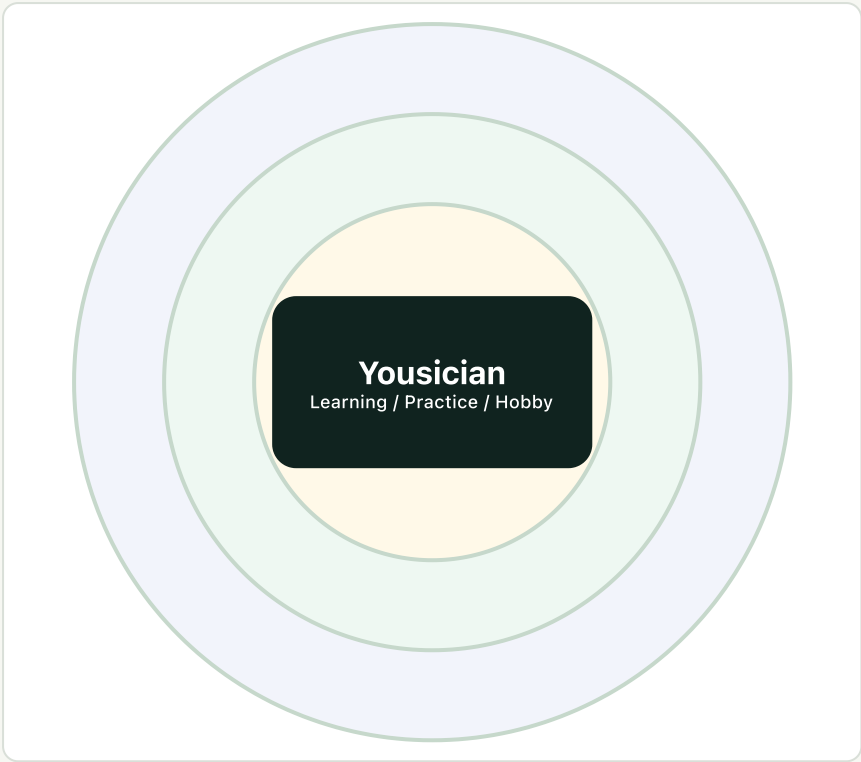

Chris-Exact Delivery Status

Area	Status	Impact	Mitigation In V3 2	Next Action
Appfigures	Not available in this package	Cannot rank app-based companies by revenue, downloads, rank trend, review velocity or country mix.	Appfigures request pack, import template, public iOS proxy refresh, and explicit non-Appfigures caveats.	Run <code>credentialed export</code> through <code>scripts/import_appfigures_export.py --credentialed</code> .
Key Player Profiles	Added	All 28 key players now have compact profile rows suitable for one-pager rendering.	<code>key_player_profiles_v3_2.csv</code> and report profile pages.	Validate performance and relationship fields with Yousician owners.
Market Moves	Curated	Static watchlist items are separated from board timeline items.	<code>news_grade</code> and <code>include_in_board_timeline</code> fields added.	Use board timeline for main report; keep context items in appendix.
Source QA	Claim-level matrix plus reviewed source-change queue	Hard claims can be checked row-by-row; source-change items are separated from final claims until reviewed.	<code>claim_source_matrix_v3_2.csv</code> plus <code>review_queue_v3.csv</code> with <code>review_status</code> and notes.	Keep hard-claim review as a gate before Board use.
Dashboard refresh	Improved but not fully autonomous	Dashboard now consumes generated <code>live-overrides.json</code> ; player taxonomy still comes from seed JS unless separately rebuilt.	Generated public proxy overrides and rebuild pipeline.	For full CMS-style dashboard, move all arrays out of <code>app.js</code> into JSON modules.
Check		Status		
Key-player one-pagers		28 profiles generated for 28 marked key players.		
Appfigures		16 rows in request pack; no <code>credentialed</code> Appfigures export present.		
Public app-store proxy		iTunes Lookup refreshed where iOS IDs were available; public proxy only.		
Market moves		48 board-timeline items; 6 appendix/context items.		
Claim-source matrix		185 claim rows; 157 marked hard claims requiring review.		
Dashboard refresh		240 source checks logged; 15 open review queue rows after the latest validation pass.		

Validation Pass v3.2.1

Validated Area	Status	Detail	Last Checked Date	Source Url
Source review queue	Completed	4 source-change items reviewed and resolved.	2026-06-11	handoff/review_queue_v3.csv
Business Finland funding	Updated	Funding tracker now includes the 2026 Sprint/Tempo context and open service framing.	2026-06-11	https://www.businessfinland.fi/en/whats-new/news/2026/what-do-business-finlands-funding-services-look-like-at-the-beginning-of-2026/
TikTok Music market move	Confirmed	The board-timeline event remains supported; no report change required beyond queue closure.	2026-06-11	https://www.businessinsider.com/tiktok-abandoning-plan-to-challenge-spotify-apple-in-music-streaming-2024-9
Remaining blockers	Classified	Credentialed Appfigures, internal relationships, paid private-company validation, platform reach exports, traffic exports and user-research linkage remain explicitly assigned.	2026-06-11	handoff/remaining_data_gaps_v3.csv

Visual Ecosystem Map

Direct learning apps

Simply, Flowkey, Skoove, Fender Play, Gibson App, Rocksmith+, Guitar Tricks, Pickup Music

Song / practice ownership

Ultimate Guitar, MuseScore, Songsterr, Chordify, Chord ai, YouTube

Hardware-backed funnels

Fender, Gibson, Yamaha, Positive Grid, retailers

Creator education

Ecosystem Map 2.0: Proximity, Influence And Validation

The revised map should be read as influence layers around the learner and around Yousician, not as a simple competitor quadrant. Proximity and momentum are strategic judgments; relationship status is never inferred.

Layer	Ecosystem Zone	Proximity To Yousician	Influence Level	Momentum Level	Representative Players	Validation Gap	Board Visual Note
1	Direct learning and practice apps	Very close	High	Medium	Simply, Flowkey, Skoove, Fender Play, Gibson App, Rocksmith+, Guitar Tricks, Pickup Music	Credentialed Appfigures required before performance ranking.	Inner ring; mark Appfigures-gated.
2	Song and repertoire ownership	Close	High	Medium	Ultimate Guitar, MuseScore, Songsterr, Chordify, Chord ai, YouTube	Traffic, Appfigures and catalog/community claims need stronger source QA.	Inner ring adjacent to learning; label as habit/repertoire layer.
3	Hardware-backed beginner funnels	Close / partnership surface	High	Medium	Fender, Gibson, Yamaha, Positive Grid, Donner, retailers	Bundle performance and relationship history must be completed by Yousician.	Partnerable ring; avoid claiming relationship status.
4	AI practice utility	Close / adjacent utility	High	High	Moises, Chord ai, Chordify AI features, transcription/stem tools	Appfigures and claims about user reach / accuracy require validation.	Inner-to-middle ring; label as utility pressure.
5	Creation and production tools	Adjacent hobby expansion	Medium-High	High	BandLab, Splice, GarageBand, Ableton, FL Studio, Soundtrap	Traffic, subscriber/user claims and AI-feature claims need source QA.	Middle ring; connect to music-as-hobby question.
6	Creator educators and media demand	Adjacent trust and acquisition layer	High	Medium-High	JustinGuitar, Marty Music, Drumeo, Pianote, Rick Beato, Paul Davids, Guitar World, MusicRadar, MusicTech	Platform exports needed for reach consistency.	Middle ring; mark reach-data incomplete.
7	Formal education and teacher networks	Trust / benchmark layer	Medium-High	Medium	ABRSM, Trinity, RSL Awards, MTNA, Berklee Online, School of Rock, teacher platforms	Internal prioritization by region, beginner influence and owner required.	Outer trust ring; do not underplay because it is less news-driven.
8	AI creation, rights and platform governance	Strategic environment	High	High	Suno, Udio, ElevenLabs Music, labels, RIAA, Spotify, YouTube, TikTok	Latest litigation/policy status must be checked before board use.	Outer strategic-pressure ring; connect to risk and opportunity.
9	Capital, awards and public funding	Opportunity and signal layer	Medium	Medium	VC/growth funds, strategic investors, Business Finland, Horizon Europe, awards ecosystems	Owner, fit/no-fit decision and deadline confirmation required.	Outer opportunity ring; show as watchlist not recommendation.

Executive Story Spine For Slide Use

Slide	Claim	Proof Object	Caveat
1	This is a broad strategic environment map, not a competitor analysis.	Counts and package scope: players, key profiles, board moves, claim-source rows.	Appfigures and relationship fields remain gated.
2	The 10 most important actors split across AI, learning, repertoire, creation, discovery, hardware, trust and rights.	Ranked actor table with evidence and validation gap.	Ranking is strategic influence, not financial performance.
3	Success cannot be reduced to revenue while Appfigures is missing.	Success signal matrix: habit, distribution, repertoire/community, creator trust, hardware reach, AI utility, funding, app performance.	Revenue/download/rank success requires Appfigures.
4	The ecosystem map should show proximity and influence layers around the learner.	Ecosystem Map 2.0 layer table.	Relationship proximity is not inferred externally.
5	The board timeline should foreground news-grade movement, not filler.	Curated market-move table with include_in_board_timeline and news_grade.	Appendix/context items stay out of the main board timeline.
6	The package is strongest where evidence and blockers are explicit.	Decision-gates table.	Blocked fields are not failure if presented as action gates.

Appfigures And Performance Data

Credentialed Appfigures export not available in this package; public app-store proxies are labelled and must not be treated as Appfigures.

Credentialed Export Request Pack

Player	App Name	App Store Id Or Package	Required Appfigures Fields	Credentialed Status	Next Action
Simply	Simply Guitar - Learn Guitar	1476695335 / com.joytunes.simplyguitar	downloads_30d; downloads_90d; downloads_365d; revenue_30d; revenue_90d; revenue_365d; rank_current; rank_30d_avg; rank_365d_trend; rating; review_count; review_velocity_90d; top_countries	Missing from package	Export Appfigures app performance rows and run scripts/import_appfigures_export.py with --credentialed.

Appfigures Credentialed Import Runbook

Official Appfigures documentation confirms API/report surfaces for sales, revenue, ratings, reviews and App Intelligence estimates. The package therefore treats Appfigures as an importable gate, not as an invented proxy.

Step	Runbook Stage	Action	Input File Or Route	Output File	Acceptance Check	Owner Placeholder	Source Url
1	Confirm Appfigures access	Confirm that the account can access required Appfigures data for tracked competitor apps, including any needed Public/Partner Data access.	https://docs.appfigures.com/	Credential/access confirmation	The owner confirms export/API scope covers downloads, revenue, ranks, ratings/reviews and country/date breakdowns.	Yousician Appfigures credential owner	https://docs.appfigures.com/
2	Export performance fields	Export the request-pack apps with 30/90/365-day downloads, revenue, current/average rank, 365-day rank trend, review velocity and top countries.	appfigures_request_pack_v3_2.csv	Credentialed Appfigures CSV	All 16 request-pack rows are present or explicitly marked unavailable.	Growth / Analytics	https://docs.appfigures.com/api/reference/v2/sales
3	Revenue route check	Use the Appfigures revenue report route where revenue data is available and permitted.	https://docs.appfigures.com/api/reference/v2/revenue	Revenue columns in credentialed export	Revenue columns are populated or explicitly unavailable by app/country/date.	Growth / Analytics	https://docs.appfigures.com/api/reference/v2/revenue
4	Ratings/reviews route check	Pull ratings, review counts and review velocity from credentialed Appfigures reports rather than public proxies where possible.	https://docs.appfigures.com/api/reference/v2/reports-ratings ; https://docs.appfigures.com/api/reference/v2/reviews	Ratings/reviews columns in credentialed export	Rating and review velocity fields use credentialed export or remain clearly marked as public proxy.	Growth / Analytics	https://docs.appfigures.com/api/reference/v2/reviews
5	Import	Run scripts/import_appfigures_export.py <export.csv> --credentialed, then rebuild outputs.	scripts/import_appfigures_export.py	appfigures-performance-export-integrated-v3.csv	Imported rows show appfigures_status = Credentialed Appfigures export imported.	Strategy / Research Ops	
6	Board QA	Rebuild deck, report, workbook and dashboard ZIP; verify no public proxy is labelled as Appfigures.	scripts/rebuild_all.sh	Final deliverables	Performance-ranking language is upgraded only for credentialed rows; all missing fields remain pending.	Strategy / Research Ops	https://docs.appfigures.com/api/reference/v2/estimates

Board Timeline: Last 24 Months News-Grade Moves

Date	Move Type	Player Or Signal	What Happened	Why It Matters For Yousician	Confidence	News Grade
2024-06-24	AI rights / litigation	Suno / Udio / RIAA	Major record companies filed copyright infringement cases against Suno and Udio.	AI music moved from novelty to rights, licensing and board-level risk.	High	A
2024-08-01	Policy / AI governance	European Union AI Act	The EU AI Act entered into force, with transparency rules for AI-generated content and GPAI obligations phasing in.	EU AI transparency and copyright compliance expectations matter for AI-enabled music learning and creation tools.	High	A
2024-09-24	Platform move	TikTok Music	TikTok announced it would shut down TikTok Music and focus on music discovery in the main TikTok app.	Music discovery power remains in social platforms even when full streaming products retreat.	Medium	B
2024-09-25	Hardware + software bundle	Duolingo / Loog	Duolingo Music was linked to a beginner-friendly portable piano product with Loog.	Consumer learning platforms are testing physical beginner bundles.	Medium	B
2024-11-12	AI product experiment	YouTube Dream Track	YouTube tested AI restyling of licensed songs for Shorts using Dream Track technology.	Short-form video platforms are turning licensed music into editable creator material.	Medium	B
2024-11-15	Marketplace closure	Microsoft TakeLessons	Microsoft's TakeLessons marketplace closed, with account access ending in November 2024.	Online lesson marketplaces remain fragile; teacher acquisition and continuity are strategic surfaces.	High	A
2025-01-22	Funding / AI utility	Music.AI / Moises	Music.AI raised a \$40M Series A and reported Moises at 50M users.	AI practice utilities have meaningful reach and investor momentum.	High	A
2025-01-29	Policy / copyright	U.S. Copyright Office	The U.S. Copyright Office published Part 2 of its AI report on copyrightability of AI outputs.	Human-authorship rules affect generated content, practice tools and creator workflows.	High	A
2025-03-17	Education network signal	School of Rock	School of Rock social channels referenced roughly 400 global locations.	Offline music schools remain scaled trust and accountability channels.	Medium	B
2025-04-28	M&A / creator tools	Splice / Spitfire Audio	Splice announced the acquisition of Spitfire Audio.	Creator-tool platforms are consolidating premium sound libraries for AI-assisted creation.	High	A
2025-06-03	Artist insights	TikTok for Artists	TikTok for Artists launched globally after beta testing, initially in 26 countries.	TikTok is becoming structured music analytics and promotion infrastructure.	High	A
2025-08-01	AI music generation	ElevenLabs Music	ElevenLabs launched Eleven Music for prompt-based music generation.	Major voice/audio AI providers moved into full music creation.	High	A
2025-08-20	AI practice / creation	Moises AI Studio	Moises launched AI Studio for adaptive AI music creation support.	Practice utilities are expanding toward creation co-pilots.	High	A
2025-09-25	AI governance	Spotify	Spotify announced stronger AI protections for artists and songwriters.	Streaming-platform AI rules shape discovery, identity and rights expectations.	High	A
2025-09-30	Funding call	Creative Europe MEDIA	The 2026 Video Games and Immersive Content Development call opened.	Interactive learning, gamified practice or immersive music products may fit future EU creative funding routes.	High	A
2025-10-02	Product launch	Splice INSTRUMENT	Splice moved beyond samples with a cloud-connected instrument plugin drawing on Spitfire libraries.	Creator platforms are reducing friction from inspiration to playable sound.	Medium	B
2025-10-29	AI rights / licensing	UMG / Udio	UMG and Udio settled litigation and announced agreements for a licensed AI music creation platform planned for 2026.	A licensed AI music lane is emerging alongside litigation.	High	A
2025-11-19	Funding / AI music	Suno	Suno raised a \$250M Series C at a \$2.45B post-money valuation.	AI music generation has crossed into large-scale venture-backed consumer infrastructure.	High	A
2025-11-25	AI rights / partnership	Warner Music Group / Suno	Warner Music Group and Suno announced a partnership and settlement path for licensed AI models.	Major labels are beginning to define opt-in licensed AI models, not only legal opposition.	High	A
2025-12-03	Artist data	Spotify Wrapped for Artists	Spotify provided personalized Wrapped experiences for artists, songwriters, creators and advertisers.	Music platforms are expanding shareable analytics loops around identity and fandom.	High	A
2025-12-10	Cultural signal	TikTok Year in Music	TikTok named global 2025 music signals and highlighted Add to Music App behavior.	Short-form music demand increasingly predicts what users may want to sing, play or learn.	High	A
2025-12-14	Award / EdTech	WorldWIDE EdTech Awards	The 2026 WorldWIDE EdTech Awards nomination deadline closed.	Education awards provide low-cost credibility routes if evidence of learning impact is documented.	Medium	B

Date	Move Type	Player Or Signal	What Happened	Why It Matters For Yousician	Confidence	News Grade
2026-01-07	Funding deadline	EIC Accelerator	The first 2026 EIC Accelerator full-application cut-off occurred.	Public deep-tech funding remains relevant for high-risk AI practice or learning innovations.	Medium	B
2026-02-06	Award deadline	Webby Awards	The 30th Annual Webby Awards extended entry deadline closed.	Apps, software, immersive and creator categories are relevant for brand and product recognition.	High	A
2026-02-11	Funding deadline	Creative Europe MEDIA	The 2026 Video Games and Immersive Content Development call deadline closed.	Music-learning/game-like products need early planning for EU creative funding cycles.	Medium	B
2026-03-01	Awards / education	EdTech Awards	The EdTech Awards 2026 announced finalists and winners in March 2026.	Learning-product credibility can be strengthened through education technology awards.	High	A
2026-03-15	Rights / royalties	Spotify Loud & Clear	Spotify's 2026 transparency reporting said 2025 payouts to the music industry exceeded \$11B.	Rights-holder economics affect catalog, artist relations and music-learning licensing context.	Medium	B
2026-04-15	AI creator tools	Splice	Splice announced generative AI tools tied to its creator compensation model.	Human-made licensed sample catalogs are being combined with traceable generative workflows.	Medium	B
2026-04-20	Award opening	Brandon Hall EdTech Awards	The Excellence in EdTech Awards launched for 2026 entries with a September deadline.	Operationally relevant award for learning products with measurable outcomes.	High	A
2026-04-30	Platform growth	YouTube Music / Premium	Alphabet reported record quarterly growth for YouTube Music and Premium non-trial subscribers.	YouTube remains central to hobby music discovery, lessons, creators and paid music consumption.	Medium	B
2026-05-01	Developer ecosystem	Google Play	Google Play summarized Q1 2026 discovery and developer tools updates.	App-store discovery and merchandising remain important for music-learning acquisition.	High	A
2026-05-18	Awards / iOS	Apple Design Awards	Apple announced 2026 Apple Design Award finalists.	Apple design recognition remains a benchmark for app craft, accessibility and interaction.	High	A
2026-06-01	App accelerator	Google Play Apps Accelerator	Google Play announced the first Apps Accelerator class of 2026.	Platform accelerator programs are a route for app growth, merchandising and developer relationships.	High	A
2026-06-05	AI rights / labor	AFM / UMG / WMG	The American Federation of Musicians sued UMG and WMG over AI licensing to Suno and Udio.	AI-rights exposure now includes session musician compensation and labor claims.	Medium	B
2026-06-08	AI creation tooling	BandLab SongStarter	BandLab's help center updated SongStarter guidance for AI-generated song ideas.	Large creator communities are normalizing AI as a lightweight idea-generation layer.	High	A
2026-06-10	AI rights / platform data	Google / YouTube / Lyria	Independent musicians sued Google over alleged use of YouTube-uploaded music for Lyria AI training.	Creator-platform data rights are becoming material to AI music tooling and trust.	Medium	B
2026-06-10	Hardware + AI software	Fender Studio Pro / Moises	Fender Studio Pro update was reported to integrate Moises stem separation and a smart studio assistant.	Instrument brands are moving deeper into app, DAW and AI utility territory.	Medium	B
2026-06-10	Award / iOS	Apple Design Awards	Apple revealed 2026 Design Award winners across app and game categories.	Awards can reveal current interaction and visual-quality benchmarks for consumer apps.	High	A
2024-10-01	Education / apps	ABRSM	ABRSM's 2024 impact report quantified global exams, qualifications and teacher support.	Formal assessment bodies still shape parent, teacher and serious-learner trust.	High	A
2025-01-15	Publishing / rights	Muse Group / Hal Leonard	Muse Group unified Hal Leonard US and Europe into a global publishing operation.	Song rights, notation, tabs and learning content are becoming more ecosystem-controlled.	Medium	B
2025-04-10	Artist platform	TikTok for Artists beta	Coverage indicated TikTok was preparing a dedicated artist insights platform before global launch.	TikTok is formalizing the data layer around music discovery.	Medium	B
2025-05-01	Education platform	Berklee Online	Berklee Online positioned itself as the world's largest online music school with 30,000+ learners from 140+ countries.	High-trust online music education offers a benchmark for credentialed, instructor-led learning.	High	A
2025-10-22	Youth performance	School of Rock / Warped Tour	School of Rock locations announced student performers at Warped Tour Orlando.	Performance-based learning connects lessons with youth culture and live music moments.	Medium	B
2026-01-22	Investor thesis	Menlo Ventures / Suno	Menlo framed Suno as participatory music creation in its Series C thesis.	Venture theses are shifting from music consumption to participatory creation.	High	A
2026-02-17	Funding result	EIC Accelerator	61 startups and SMEs secured EIC Accelerator support in the latest round.	EU deep-tech funding remains competitive but meaningful for high-risk innovation.	High	A
2026-04-02	AI awards	Tom's Guide AI Awards	Tom's Guide AI Awards nominations closed for 2026.	Consumer AI awards are useful external signals for AI utility positioning.	Medium	B
2026-05-22	Creator / hardware culture	Rick Beato / Gibson / Nuno Bettencourt	Guitar media highlighted Rick Beato's live collaboration at Six-String Sanctuary and use of signature Gibson gear.	Creator educators increasingly bridge learning, artist culture and hardware marketing.	Medium	B

Date	Move Type	Player Or Signal	What Happened	Why It Matters For Yousician	Confidence	News Grade
2026-06-03	Funding / public RDI	Business Finland	Business Finland funding listings showed open R&D and internationalization funding routes.	As a Finnish company, Yousician can screen public RDI funding against product and AI initiatives.	High	A

Appendix Timeline Items: Useful Context, Weaker As News

Date	Move Type	Player Or Signal	What Happened	Curation Note	Confidence	News Grade
2024-06-20	Product / guitar learning	Rocksmith+	Rocksmith+ continued cross-platform subscription positioning for learning real songs with real instruments.	Useful context, but weaker as a 'who made the news' item.	Medium	C
2024-07-15	Practice utility	Chord ai	Chord ai public listings positioned AI chord, beat and song-structure recognition as a play-any-song utility.	Useful context, but weaker as a 'who made the news' item.	Medium	C
2025-02-01	Creator community	BandLab	BandLab continued to present itself as a 100M+ creator and fan platform.	Useful context, but weaker as a 'who made the news' item.	High	C
2025-06-01	Teacher network	Lessonface	Lessonface continued positioning as a marketplace for vetted online music teachers and live lessons.	Useful context, but weaker as a 'who made the news' item.	Medium	C
2025-07-01	Practice ecosystem	MuseScore	MuseScore public app listings emphasized interactive sheet music, tabs and large score access.	Useful context, but weaker as a 'who made the news' item.	Medium	C
2025-09-01	Creator education	Pianote / Musora	Musora education brands continued to scale YouTube-led funnels for piano, drums, guitar and voice.	Useful context, but weaker as a 'who made the news' item.	Medium	C

Key Player Overview Table

Brief Category	Player	What They Are	Estimated Size Reach	Ownership Investors	AI Or Recent Initiatives	Why They Matter	Confidence	Priority
Music learning apps and platforms	Simply	Mobile-first music learning platform and direct reference point for casual learners.	Large consumer app	Simply Ltd	Potential personalization and practice feedback research target	Useful benchmark for onboarding, motivation, pricing, and growth in app-based music education.	Pending	High
Music hobby software ecosystem	Ultimate Guitar	Tab, chord, song, and musician community ecosystem for guitar players.	Large global music community	Muse Group	Research AI-assisted discovery, practice, and content workflow signals	Strong influence on how hobbyists discover songs and move from inspiration to practice.	Low	High
Music learning apps and platforms	Fender Play	Learning product connected to one of the strongest guitar brands.	Brand-backed learning app	Fender	Confirmed app feedback surface; broader AI/connected-instrument roadmap remains a monitoring hypothesis	Shows how instrument makers can extend into software, subscriptions, and beginner journeys.	Pending	Medium
Music learning apps and platforms	Flowkey	Piano learning app focused on songs, guided lessons, and practice support.	Established piano app	flowkey GmbH; Yamaha is a hardware-promotion partner, not shown here as owner	Confirmed feedback/product-learning surface; AI content generation remains a monitoring hypothesis	Important benchmark for piano learning, catalog positioning, and conversion mechanics.	Pending	Medium
Music hobby software ecosystem	JustinGuitar	Influential guitar educator with a broad online learning footprint.	Large creator-led audience	Independent	Research how creator-led learning uses AI-assisted practice or content	Shows the power of trusted teachers and free content in shaping learner behavior.	Low	Medium
Instrument brands, manufacturers and distributors	Fender	Iconic guitar brand with reach across aspiration, hardware, education, and artist culture.	Major global brand	Private	Research connected instrument and practice feedback initiatives	Instrument brands can shape the beginner funnel before users choose a learning app.	Low	High
Instrument brands, manufacturers and distributors	Yamaha	Large music instrument and audio company with broad education relevance.	Major global brand	Public company	Research smart instruments, learning integrations, and audio AI	Influences hardware access, music education channels, and partner possibilities.	Low	Medium
Music hobby software ecosystem	BandLab	Cloud music creation and collaboration ecosystem with strong creator and community signals.	Large creator community	BandLab Technologies	AI-assisted creation and creator workflow research target	Represents the shift from learning an instrument to making and sharing music quickly.	Low	High
Music hobby software ecosystem	Splice	Sample, sound, and creator workflow platform.	Large creator tool	Private	AI search, generation, and workflow research target	Shows how hobbyists and creators pay for tools that accelerate making music.	Low	Medium
AI companies and AI initiatives	Suno	AI music generation platform that changes how non-musicians create complete songs.	High visibility AI platform	Private	Core AI music generation	May shift the meaning of music participation, motivation, and creation for casual users.	Low	High
AI companies and AI initiatives	Udio	AI music generation platform for prompt-based song creation.	High visibility AI platform	Private	Core AI music generation	Important to understand whether AI creation competes with, complements, or expands music learning.	Low	Medium
AI companies and AI initiatives	Moises	AI-powered music practice and audio utility used by musicians and learners.	Large musician utility	Private	Audio separation, practice tools, smart music utilities	Strong example of AI improving practice workflows without replacing instrument learning.	Medium	High
Teachers, schools and music education organizations / wider education	Duolingo	Consumer learning benchmark for habit formation, gamification, and subscription education.	Very large public consumer education app	Public company	AI personalization, tutoring, and content systems research target	Not music-specific, but highly relevant for learning loops, retention, brand, and AI in education.	Low	Medium
Music learning apps and platforms	Guitar Tricks	Long-running online guitar lesson platform with structured courses, songs, and learning tools.	Large online guitar education platform	Guitar Tricks Inc.	Research personalization, practice planning, and lesson recommendation signals	Important guitar-specific subscription benchmark for curriculum depth, song-led learning, and adult beginner messaging.	Pending	Medium
Music learning apps and platforms	Pickup Music	Modern guitar-learning platform built around structured pathways and contemporary player identity.	Growing modern guitar platform	Pickup Music, Inc.	Research personalized feedback, pathway design, and practice accountability	Useful benchmark for higher-intent guitarists, modern aesthetics, community, and guided weekly practice.	Medium	Medium
Music learning apps and platforms	Rocksmith+	Interactive music-learning service built around real instruments, song catalog, and feedback.	Major game-backed learning brand	Ubisoft	Research note detection, adaptive difficulty, and song-based feedback mechanics	Important benchmark for real-time feedback, licensed songs, game-like practice, and multi-instrument expansion.	Low	Medium
Music learning apps and platforms	Gibson App	Guitar-learning app connected to Gibson's hardware and brand ecosystem.	Brand-backed learning app	Gibson	Research real-time feedback and brand-led personalization	Shows how a major guitar brand can bundle learning with instrument purchase and beginner motivation.	Pending	Medium
Music hobby software ecosystem	Chordify	Chord-recognition and play-along platform that turns songs into playable chord progressions.	Large chord utility	Chordify B.V.	Chord recognition, song parsing, and practice support	Owens a high-intent moment between song discovery and self-guided practice	Low	Medium

Brief Category	Player	What They Are	Estimated Size Reach	Ownership Investors	Ai Or Recent Initiatives	Why They Matter	Confidence	Priority
Music hobby software ecosystem	YouTube	Default open platform for free music learning, creator-led lessons, discovery, and artist careers.	Massive global platform	Google / Alphabet	Recommendation, Shorts discovery, creator tools, and AI content policy	A major substitute and funnel for self-guided learning; it shapes inspiration, discovery, and expectations of free content.	Low	High
Instrument brands, manufacturers and distributors	Gibson	Iconic guitar brand with a direct learning app and hardware-led beginner entry points.	Major guitar brand	Private	Research connected learning, app feedback, and brand-led beginner journeys	Hardware brands can capture learner intent before software choice and can bundle education into purchase moments.	Low	Medium
Instrument brands, manufacturers and distributors	Positive Grid	Smart guitar amp and app ecosystem connecting gear, tones, songs, and practice.	Visible smart-amp ecosystem	Private	AI tone generation, chord detection, smart practice, and connected hardware	Shows how hardware can become an app-led practice surface and compete for daily guitar time.	Low	Medium
Music hobby software ecosystem	FL Studio	Popular music production software known for fast beat-making and accessible creator workflows.	Major producer platform	Image-Line	Research browser DAW, AI-assisted production, and beginner creator onboarding	Shapes the path from musical interest to beat-making, production, and creator identity.	Low	Medium
AI companies and AI initiatives	ElevenLabs Music	AI audio platform expanding into full music generation from natural language prompts.	High-profile AI audio company	Private	Core AI music and audio generation	Important because major AI audio platforms may enter music creation, rights, and creator tooling at scale.	Low	Medium
Investors, media, awards, funding and cultural drivers	Spotify for Artists	Artist-facing platform for managing Spotify presence, audience insights, promotion, and artist business tools.	Major global music platform	Spotify	Artist authenticity, AI music policy, recommendations, and creator tools	Important for how hobbyists understand music success, release goals, artist identity, and AI-authenticity debates.	Low	Medium
Investors, media, awards, funding and cultural drivers	TikTok for Artists	Artist insight platform tied to TikTok's music discovery and fan engagement surface.	Massive short-form discovery platform	ByteDance	Recommendation, trend detection, creator tools, and AI content policy	TikTok can shape song discovery, cultural momentum, and what learners want to play.	Low	Medium
Music learning apps and platforms	Musora	Umbrella music education platform spanning drums, piano, guitar, singing, lessons, and community.	Large online music lesson ecosystem	Private	Research practice feedback, lesson recommendation, and cross-instrument learning paths	Adds an important multi-instrument subscription benchmark beyond single-instrument apps.	Low	Medium
Music learning apps and platforms	Fretello	Mobile guitar learning app focused on structured plans and guided practice.	Specialist guitar app	Fretello GmbH	Research personalization, adaptive plans, and feedback patterns	Directly relevant for guitar onboarding, lesson pacing, personalization, and app-store positioning.	Pending	Medium
Music hobby software ecosystem	Chord ai	Mobile app that detects chords and song structure from audio to support self-guided playing.	Visible AI practice utility	Nomad AI	Core AI chord recognition and song parsing	Important because it moves AI directly into the song-to-practice moment that GuitarTuna/Yousician users care about.	Pending	Medium

Simply

Music learning apps and platforms

Who They Are

Mobile-first music learning platform and direct reference point for casual learners.

Why They Likely Matter

Useful benchmark for onboarding, motivation, pricing, and growth in app-based music education.

Scale / Reach Status

Large consumer app

Ownership / Investors

Simply Ltd

AI Or Recent Initiatives

Potential personalization and practice feedback research target

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

Simply Guitar - Learn Guitar: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.; Simply Piano: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

JustinGuitar

Music hobby software ecosystem

Who They Are

Influential guitar educator with a broad online learning footprint.

Why They Likely Matter

Shows the power of trusted teachers and free content in shaping learner behavior.

Scale / Reach Status

Large creator-led audience

Ownership / Investors

Independent

AI Or Recent Initiatives

Research how creator-led learning uses AI-assisted practice or content

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.justinguitar.com/>

Fender

Instrument brands, manufacturers and distributors

Who They Are

Iconic guitar brand with reach across aspiration, hardware, education, and artist culture.

Why They Likely Matter

Instrument brands can shape the beginner funnel before users choose a learning app.

Scale / Reach Status

Major global brand

Ownership / Investors

Private

AI Or Recent Initiatives

Research connected instrument and practice feedback initiatives

Last 24 Months

2026-06-10: Fender Studio Pro update was reported to integrate Moises stem separation and a smart studio assistant.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.fender.com/play>

Yamaha

Instrument brands, manufacturers and distributors

Who They Are

Large music instrument and audio company with broad education relevance.

Why They Likely Matter

Influences hardware access, music education channels, and partner possibilities.

Scale / Reach Status

Major global brand

Ownership / Investors

Public company

AI Or Recent Initiatives

Research smart instruments, learning integrations, and audio AI

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.yamaha.com/en/products-services/>

BandLab

Music hobby software ecosystem

Who They Are

Cloud music creation and collaboration ecosystem with strong creator and community signals.

Why They Likely Matter

Represents the shift from learning an instrument to making and sharing music quickly.

Scale / Reach Status

Large creator community

Ownership / Investors

BandLab Technologies

AI Or Recent Initiatives

AI-assisted creation and creator workflow research target

Last 24 Months

2026-06-08: BandLab's help center updated SongStarter guidance for AI-generated song ideas. | 2025-02-01: BandLab continued to present itself as a 100M+ creator and fan platform.

Performance Data Status

BandLab Music Maker & Beats: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.bandlab.com/?lang=en>

Splice

Music hobby software ecosystem

Who They Are

Sample, sound, and creator workflow platform.

Why They Likely Matter

Shows how hobbyists and creators pay for tools that accelerate making music.

Scale / Reach Status

Large creator tool

Ownership / Investors

Private

AI Or Recent Initiatives

AI search, generation, and workflow research target

Last 24 Months

2026-04-15: Splice announced generative AI tools tied to its creator compensation model. | 2025-10-02: Splice moved beyond samples with a cloud-connected instrument plugin drawing on Spitfire libraries. | 2025-04-28: Splice announced the acquisition of Spitfire Audio.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://splice.com/>

Suno

AI companies and AI initiatives

Who They Are

AI music generation platform that changes how non-musicians create complete songs.

Why They Likely Matter

May shift the meaning of music participation, motivation, and creation for casual users.

Scale / Reach Status

High visibility AI platform

Ownership / Investors

Private

AI Or Recent Initiatives

Core AI music generation

Last 24 Months

2026-01-22: Menlo framed Suno as participatory music creation in its Series C thesis. | 2025-11-25: Warner Music Group and Suno announced a partnership and settlement path for licensed AI models. | 2025-11-19: Suno raised a \$250M Series C at a \$2.45B post-money valuation.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://suno.com/about>

Udio

AI companies and AI initiatives

Who They Are

AI music generation platform for prompt-based song creation.

Why They Likely Matter

Important to understand whether AI creation competes with, complements, or expands music learning.

Scale / Reach Status

High visibility AI platform

Ownership / Investors

Private

AI Or Recent Initiatives

Core AI music generation

Last 24 Months

2026-06-10: Fender Studio Pro update was reported to integrate Moises stem separation and a smart studio assistant. | 2025-10-29: UMG and Udio settled litigation and announced agreements for a licensed AI music creation platform planned for 2026. | 2025-08-20: Moises launched AI Studio for adaptive AI music creation support.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.udio.com/>

Moises

AI companies and AI initiatives

Who They Are

AI-powered music practice and audio utility used by musicians and learners.

Why They Likely Matter

Strong example of AI improving practice workflows without replacing instrument learning.

Scale / Reach Status

Large musician utility

Ownership / Investors

Private

AI Or Recent Initiatives

Audio separation, practice tools, smart music utilities

Last 24 Months

2026-06-10: Fender Studio Pro update was reported to integrate Moises stem separation and a smart studio assistant. | 2025-08-20: Moises launched AI Studio for adaptive AI music creation support. | 2025-01-22: Music.AI raised a \$40M Series A and reported Moises at 50M users.

Performance Data Status

Moises: The Musician's App: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://moises.ai/>

Duolingo

Teachers, schools and music education organizations / wider education

Who They Are

Consumer learning benchmark for habit formation, gamification, and subscription education.

Why They Likely Matter

Not music-specific, but highly relevant for learning loops, retention, brand, and AI in education.

Scale / Reach Status

Very large public consumer education app

Ownership / Investors

Public company

AI Or Recent Initiatives

AI personalization, tutoring, and content systems research target

Last 24 Months

2024-09-25: Duolingo Music was linked to a beginner-friendly portable piano product with Loog.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://investors.duolingo.com/investor-relations>

Guitar Tricks

Music learning apps and platforms

Who They Are

Long-running online guitar lesson platform with structured courses, songs, and learning tools.

Why They Likely Matter

Important guitar-specific subscription benchmark for curriculum depth, song-led learning, and adult beginner messaging.

Scale / Reach Status

Large online guitar education platform

Ownership / Investors

Guitar Tricks Inc.

AI Or Recent Initiatives

Research personalization, practice planning, and lesson recommendation signals

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.guitartricks.com/>

Pickup Music

Music learning apps and platforms

Who They Are

Modern guitar-learning platform built around structured pathways and contemporary player identity.

Why They Likely Matter

Useful benchmark for higher-intent guitarists, modern aesthetics, community, and guided weekly practice.

Scale / Reach Status

Growing modern guitar platform

Ownership / Investors

Pickup Music, Inc.

AI Or Recent Initiatives

Research personalized feedback, pathway design, and practice accountability

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.pickupmusic.com/>

Rocksmith+

Music learning apps and platforms

Who They Are

Interactive music-learning service built around real instruments, song catalog, and feedback.

Why They Likely Matter

Important benchmark for real-time feedback, licensed songs, game-like practice, and multi-instrument expansion.

Scale / Reach Status

Major game-backed learning brand

Ownership / Investors

Ubisoft

AI Or Recent Initiatives

Research note detection, adaptive difficulty, and song-based feedback mechanics

Last 24 Months

2024-06-20: Rocksmith+ continued cross-platform subscription positioning for learning real songs with real instruments.

Performance Data Status

Rocksmith+: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.ubisoft.com/en-us/game/rocksmith/plus>

Gibson App

Music learning apps and platforms

Who They Are

Guitar-learning app connected to Gibson's hardware and brand ecosystem.

Why They Likely Matter

Shows how a major guitar brand can bundle learning with instrument purchase and beginner motivation.

Scale / Reach Status

Brand-backed learning app

Ownership / Investors

Gibson

AI Or Recent Initiatives

Research real-time feedback and brand-led personalization

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

Gibson: Learn & Play Guitar: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.gibson.app/>

Chordify

Music hobby software ecosystem

Who They Are

Chord-recognition and play-along platform that turns songs into playable chord progressions.

Why They Likely Matter

Owens a high-intent moment between song discovery and self-guided practice.

Scale / Reach Status

Large chord utility

Ownership / Investors

Chordify B.V.

AI Or Recent Initiatives

Chord recognition, song parsing, and practice support

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

Chordify: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://chordify.net/>

YouTube

Music hobby software ecosystem

Who They Are

Default open platform for free music learning, creator-led lessons, discovery, and artist careers.

Why They Likely Matter

A major substitute and funnel for self-guided learning; it shapes inspiration, discovery, and expectations of free content.

Scale / Reach Status

Massive global platform

Ownership / Investors

Google / Alphabet

AI Or Recent Initiatives

Recommendation, Shorts discovery, creator tools, and AI content policy

Last 24 Months

2026-06-10: Independent musicians sued Google over alleged use of YouTube-uploaded music for Lyria AI training. | 2026-04-30: Alphabet reported record quarterly growth for YouTube Music and Premium non-trial subscribers. | 2024-11-12: YouTube tested AI restyling of licensed songs for Shorts using Dream Track technology.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://artists.youtube/>

Gibson

Instrument brands, manufacturers and distributors

Who They Are

Iconic guitar brand with a direct learning app and hardware-led beginner entry points.

Why They Likely Matter

Hardware brands can capture learner intent before software choice and can bundle education into purchase moments.

Scale / Reach Status

Major guitar brand

Ownership / Investors

Private

AI Or Recent Initiatives

Research connected learning, app feedback, and brand-led beginner journeys

Last 24 Months

2026-05-22: Guitar media highlighted Rick Beato's live collaboration at Six-String Sanctuary and use of signature Gibson gear.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.gibson.com/>

Positive Grid

Instrument brands, manufacturers and distributors

Who They Are

Smart guitar amp and app ecosystem connecting gear, tones, songs, and practice.

Why They Likely Matter

Shows how hardware can become an app-led practice surface and compete for daily guitar time.

Scale / Reach Status

Visible smart-amp ecosystem

Ownership / Investors

Private

AI Or Recent Initiatives

AI tone generation, chord detection, smart practice, and connected hardware

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.positivegrid.com/>

FL Studio

Music hobby software ecosystem

Who They Are

Popular music production software known for fast beat-making and accessible creator workflows.

Why They Likely Matter

Shapes the path from musical interest to beat-making, production, and creator identity.

Scale / Reach Status

Major producer platform

Ownership / Investors

Image-Line

AI Or Recent Initiatives

Research browser DAW, AI-assisted production, and beginner creator onboarding

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.image-line.com/>

ElevenLabs Music

AI companies and AI initiatives

Who They Are

AI audio platform expanding into full music generation from natural language prompts.

Why They Likely Matter

Important because major AI audio platforms may enter music creation, rights, and creator tooling at scale.

Scale / Reach Status

High-profile AI audio company

Ownership / Investors

Private

AI Or Recent Initiatives

Core AI music and audio generation

Last 24 Months

2025-08-01: ElevenLabs launched Eleven Music for prompt-based music generation.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://elevenlabs.io/music>

Spotify for Artists

Investors, media, awards, funding and cultural drivers

Who They Are

Artist-facing platform for managing Spotify presence, audience insights, promotion, and artist business tools.

Why They Likely Matter

Important for how hobbyists understand music success, release goals, artist identity, and AI-authenticity debates.

Scale / Reach Status

Major global music platform

Ownership / Investors

Spotify

AI Or Recent Initiatives

Artist authenticity, AI music policy, recommendations, and creator tools

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://artists.spotify.com/en/home>

TikTok for Artists

Investors, media, awards, funding and cultural drivers

Who They Are

Artist insight platform tied to TikTok's music discovery and fan engagement surface.

Why They Likely Matter

TikTok can shape song discovery, cultural momentum, and what learners want to play.

Scale / Reach Status

Massive short-form discovery platform

Ownership / Investors

ByteDance

AI Or Recent Initiatives

Recommendation, trend detection, creator tools, and AI content policy

Last 24 Months

2025-06-03: TikTok for Artists launched globally after beta testing, initially in 26 countries. | 2025-04-10: Coverage indicated TikTok was preparing a dedicated artist insights platform before global launch.

Performance Data Status

No app-performance row mapped; add if app-based.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://artists.tiktok.com/>

Musora

Music learning apps and platforms

Who They Are

Umbrella music education platform spanning drums, piano, guitar, singing, lessons, and community.

Why They Likely Matter

Adds an important multi-instrument subscription benchmark beyond single-instrument apps.

Scale / Reach Status

Large online music lesson ecosystem

Ownership / Investors

Private

AI Or Recent Initiatives

Research practice feedback, lesson recommendation, and cross-instrument learning paths

Last 24 Months

2025-09-01: Musora education brands continued to scale YouTube-led funnels for piano, drums, guitar and voice.

Performance Data Status

Musora / Drumeo / Pianote apps: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://www.musora.com/>

Fretello

Music learning apps and platforms

Who They Are

Mobile guitar learning app focused on structured plans and guided practice.

Why They Likely Matter

Directly relevant for guitar onboarding, lesson pacing, personalization, and app-store positioning.

Scale / Reach Status

Specialist guitar app

Ownership / Investors

Fretello GmbH

AI Or Recent Initiatives

Research personalization, adaptive plans, and feedback patterns

Last 24 Months

No strong last-24-month news item mapped yet; monitor via source watchlist.

Performance Data Status

Fretello Guitar Lessons: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://fretello.com/app/>

Chord ai

Music hobby software ecosystem

Who They Are

Mobile app that detects chords and song structure from audio to support self-guided playing.

Why They Likely Matter

Important because it moves AI directly into the song-to-practice moment that GuitarTuna/Yousician users care about.

Scale / Reach Status

Visible AI practice utility

Ownership / Investors

Nomad AI

AI Or Recent Initiatives

Core AI chord recognition and song parsing

Last 24 Months

2024-07-15: Chord ai public listings positioned AI chord, beat and song-structure recognition as a play-any-song utility.

Performance Data Status

Chord ai: Credentialed Appfigures export not available in this package; use Appfigures import path before treating performance metrics as complete.

Relationship Completion

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

Next Validation Step

Validate Appfigures/traffic or investor data where applicable; confirm internal relationship owner.

Primary source: <https://apps.apple.com/us/app/chord-ai-play-any-song/id1446177109>

Claim-To-Source Matrix

Hard claims are claims about funding, ownership, user/reach metrics, AI features, M&A, app-store proxies or quantified scale. These rows should be reviewed before Board use.

Confidence mix: {'Pending': 14, 'Low': 45, 'Medium': 60, 'High': 50, 'Pending Appfigures / Public proxy only': 16}

Teachers, Schools And Education Organizations

Organization	Type	Size Reach	Region	Yousician Relevance Tier	Beginner Influence	Partnership Potential	Next Validation Step
ABRSM	Exam board / charity	Official site states 650,000+ exams and assessments each year in 93 countries; 2024 report lists 445,229 qualifications in 2023/24.	Global / UK	High	High	Curriculum alignment, exam-prep pathways, teacher resources.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Trinity College London	Exam board	Global exam board with 150+ years of assessment heritage.	Global / UK	High	High	Curriculum mapping, certification awareness, teacher partnerships.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
RSL Awards / Rockschoo	Exam board / qualifications	Global exam and qualification network; UK Music notes 150+ examiners/assessors/moderators.	Global / UK	High	Medium	Contemporary syllabus alignment and teacher outreach.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Music Teachers National Association	Teacher association	Public profiles cite 17,000+ members across US state/local affiliates.	United States	High	Medium	Teacher ambassador, research and certification awareness.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Berklee Online	Online music school	Official FAQ: 30,000+ musicians from 140+ countries have taken courses; classes cap at 20.	Global / US	High	Medium	Course partnerships, instructor credibility and progression benchmarking.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
School of Rock	Music school franchise	Public social/current pages reference 400+ locations; official locator validates broad footprint.	Global / US-led	High	High	Local referral, camp tie-ins, hybrid practice support.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Lessonface	Online lesson marketplace	Marketplace with verified student reviews and live online format.	Global / US	Medium	High	Teacher marketplace learning and referral patterns.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
TakeLessons	Closed lesson marketplace	Closure FAQ confirms account access ended 2024-11-15.	United States	Medium	Medium	Teacher migration signal; not an active relationship target.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Musora	Online lesson ecosystem	Large YouTube-led education ecosystem; exact membership requires validation.	Global / Canada	Medium	High	Benchmark for teacher-led content, community and membership.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Pianote	Online piano lesson brand	Public site and YouTube proxies show large reach; exact paid base pending.	Global / Canada	Medium	High	Creator collaboration and piano pedagogy benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Drumeo	Online drum lesson brand	YouTube public proxy: 5.47M subscribers.	Global / Canada	Medium	Medium	Content, artist and community benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Scott's Bass Lessons	Online bass school	Public proxies: 1.57M YouTube subscribers and large course platform.	Global / UK	Medium	Medium	Specialist pedagogy and community benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
ArtistWorks	Online teacher platform	Specialist paid education platform; scale requires validation.	Global / US	Medium	Medium	Feedback-flow benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
tonebase	Online music education	Specialist subscription platform; scale requires validation.	Global / US	Medium	Medium	Advanced learner and teacher credibility benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Royal Conservatory of Music	Curriculum / exam body	North American formal-learning institution.	Canada / North America	Medium	Medium	Curriculum mapping and digital learning scan.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.
Flat for Education	Classroom music SaaS	Teacher/school SaaS; exact school penetration pending.	Global	Medium	Medium	Classroom tool integration benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.

Organization	Type	Size Reach	Region	Yousician Relevance Tier	Beginner Influence	Partnership Potential	Next Validation Step
Noteflight Learn	Classroom notation platform	Established education-facing notation platform; ownership/traffic requires validation.	Global / US	Medium	Medium	Teacher workflow benchmark.	Confirm regional relevance, current learner/teacher reach, and whether Yousician has an internal owner.

Investors Active In The Space

Investor Fund	Type	Thesis	Relevant Portfolio Companies	Recent Relevant Deals	Why Relevant For Yousician	Source Confidence
Menlo Ventures	VC	AI, consumer and enterprise technology.	Suno	Led Suno \$250M Series C in 2025.	Relevant because AI music creation is now a major VC-backed consumer thesis.	High
Lightspeed Venture Partners	VC	Consumer, enterprise and AI scale companies.	Suno	Participated in Suno Series C.	Indicates mainstream venture appetite for participatory music creation.	High
Matrix Partners	VC	Early-stage technology and AI.	Suno	Participated in Suno Series C.	Useful AI-music investor signal.	High
NVentures	Corporate VC	NVIDIA corporate venture arm investing in AI ecosystems.	Suno	Participated in Suno Series C.	Shows strategic AI infrastructure interest in music generation.	High
Hallwood Media	Strategic investor	Music and entertainment investment.	Suno	Participated in Suno Series C.	Relevant as music-native capital enters generative AI.	Medium
Connect Ventures	Strategic VC	CAA + NEA partnership investing in culture, commerce and technology.	Music.AI / Moises	Led Music.AI \$40M Series A with monashees.	Strong signal for practical musician AI tools.	High
monashees	VC	Brazilian VC investing in technology companies.	Music.AI / Moises	Co-led Music.AI Series A.	Relevant to Moises and global AI musician-tool growth.	High
Samsung Next	Corporate VC	Software, AI and platform investments tied to Samsung ecosystem.	Music.AI / Moises	Participated in Music.AI Series A.	Relevant for embedded and on-device practice AI.	Medium
Kickstart	VC	Seed and early-stage technology.	Music.AI / Moises	Participated in Music.AI Series A.	Useful as practical AI-tools investor signal.	High
Pelion Venture Partners	VC	Early-stage technology.	Music.AI / Moises	Participated in Music.AI Series A.	Relevant for music AI utility investment mapping.	High
Toba Capital	VC	Enterprise and technology growth.	Music.AI / Moises	Participated in Music.AI Series A.	Relevant as AI audio moves beyond consumer apps to B2B/audio infrastructure.	High
Valutia	VC / investor	Technology investment.	Music.AI / Moises	Participated in Music.AI Series A.	Watchlist investor around practical audio AI.	Medium
Accel	VC / growth	Global venture capital across consumer, SaaS and marketplaces.	Simply / JoyTunes public history to validate	Existing v2 queue flags ownership/investor validation.	Relevant for consumer learning and subscription scaling patterns.	Medium
Prosus Ventures	VC / growth	Consumer internet, education and marketplace investments.	BandLab	Joined BandLab Series B per public coverage.	Relevant to scaled social creation and emerging-market consumer behavior.	Medium
Vulcan Capital / Cercano	VC / family office	Technology, media and growth investments.	BandLab	Led BandLab Series B coverage in 2022.	Relevant for social music creation and long-horizon capital.	Medium
Caldecott Music Group	Strategic / holding company	Music media, instruments and creator ecosystem.	BandLab, NME, Harmony, MONO	BandLab parent ecosystem and investor in Series B.	Relevant as a music-native ecosystem operator.	High
Goldman Sachs Growth	Growth fund / merchant banking	Growth equity in software and scaled platforms.	Splice	Led Splice Series D per public coverage.	Relevant to scale economics and consolidation in music software.	Medium
MUSIC / LionTree	Strategic investment vehicle	Music publishing and media investment.	Splice	Participated in Splice Series D.	Relevant as music-rights-aware capital in creator tools.	Medium
Sony Innovation Fund	Corporate VC	Entertainment, gaming, music and technology innovation.	Music/AI startups to validate	Specific music-learning or AI-music deals require investor-database validation.	Relevant corporate venture arm for entertainment technology scanning.	Medium
Warner Music Group	Strategic / corporate	Recorded music, publishing and music technology partnerships.	Suno partnership; Udio collaboration	Settled/partnered with Suno and collaborated with Udio in 2025.	Relevant as rights infrastructure around AI music.	High
Universal Music Group	Strategic / corporate	Recorded music and publishing rights owner with tech partnerships.	Udio, Splice, BandLab relationships	Announced Udio settlement/licensed platform and Splice AI collaboration.	Relevant for rights-safe AI creation and catalog constraints.	High
Business Finland	Public funder	Finnish public funding for RDI and internationalization.	Finnish companies and RDI projects	Open R&D and piloting funding services.	Operationally relevant public-funding route for Yousician.	High

Media And Cultural Drivers

Driver	Type	Current Signal	Audience Reach	Why It Matters For Yousician	Source Confidence
Guitar World	Specialist media	Guitar reviews, artists, technique and gear news.	Large guitar enthusiast audience; exact reach pending.	Shapes guitar aspiration, gear discovery and creator credibility.	Medium
MusicRadar	Specialist media	Music tech, guitar, production and instrument coverage.	Large Future plc music-tech audience; exact reach pending.	Tracks product launches and practical creator-tool adoption.	Medium
MusicTech	Specialist media	Music technology, production and industry coverage.	Global music-tech media; exact reach pending.	Good signal for AI, creation tools and production culture.	Medium
Billboard	Music industry media	Charts, music business and artist culture.	Major US/global music industry publication.	Indicates mainstream cultural and business relevance.	High
Music Business Worldwide	Music business media	Rights, funding, AI, labels and music business news.	Highly relevant industry readership; exact reach pending.	Strong source for funding, M&A and rights developments.	High
Music Ally	Music business intelligence	Music-tech, digital music and artist marketing analysis.	Subscription intelligence audience; exact reach pending.	Useful for deeper monitoring and trend validation.	Medium
MIDIa Research	Research firm	Consumer, media, music and creator-economy research.	Paid research provider; exact report access required.	Useful for sizing, behavior shifts and investor/board context.	Medium
Luminate	Music data provider	Streaming, sales and entertainment consumption data.	Industry data infrastructure provider.	Can validate catalog demand and song-level culture shifts.	High
Chartmetric	Music analytics	Artist, playlist, social and streaming analytics.	Industry analytics platform.	Helps connect social momentum to music demand and learner interest.	High
TikTok	Short-form platform	Music discovery, creator trends, Add to Music App and artist analytics.	Massive global platform; public company-level MAU requires validation.	Strong influence on what beginners want to sing, play or learn.	High
YouTube	Video / creator platform	Lessons, creator educators, Shorts, AI music experiments and music streaming.	Massive global platform; exact music-learning reach requires platform analytics.	Primary distribution layer for free music learning and creator trust.	High
Spotify for Artists	Artist platform	Artist analytics, Campaign Kit, merch, tickets and fan development.	Major artist infrastructure layer.	Influences advanced hobbyists and creator identity.	High
Ultimate Guitar song demand	Practice ecosystem	Tabs, chords and song-practice demand.	Google Play public proxy: 10M+ downloads and 627K reviews.	Strong proxy for what guitarists want to play.	Medium
MuseScore repertoire demand	Notation ecosystem	Sheet music, notation and score discovery.	Google Play public proxy: 10M+ downloads; app listing references 3M+ scores.	Influences advancing learners and multi-instrument repertoire.	Medium
Songsterr tab demand	Practice ecosystem	Interactive tabs, playback and song-led practice.	Apple public proxy: 42K ratings; app listing claims large tab catalog.	Captures frictionless play-along practice intent.	Medium
BandLab creator community	Creation platform	Mobile/web creation, collaboration, AI tools and community.	Official public proxy: 100M+ creators and fans.	Represents the create/share route after or instead of instrument learning.	High
Splice creator workflow	Creator tools	Samples, AI tools, plugins and creator compensation model.	MBW/FT public proxies: paid subscriber and revenue details require source-specific validation.	Shows where hobby creation becomes paid tooling.	Medium
NPR Tiny Desk	Cultural media	Live music performance format and viral discovery.	Major cultural music format; exact reach by video varies.	Can create beginner interest around artists, instruments and performance.	Medium
NAMM	Industry event	Instrument, gear, education and music-products trade event.	Global music products industry event.	Important for hardware/software bundles and partnerships.	High
Music Tectonics	Music-tech event/media	Music-tech conference and innovation community.	Specialist industry audience.	Relevant for AI, creator tools and music-tech networking.	Medium
The Verge	Technology media	Consumer tech, apps, AI and platform coverage.	Large tech-media audience.	Useful for mainstream tech framing of music AI and apps.	Medium
TechCrunch	Startup media	Funding, startups and technology platforms.	Large startup ecosystem media audience.	Useful for investor and funding signals.	Medium
Parent / family education media	Audience channel	Parent-focused learning, kids and edtech content.	Fragmented; requires channel-specific selection.	Parents influence beginner instrument starts and subscription purchases.	Medium
Duolingo Music	Consumer education signal	Music learning inside a very large education app ecosystem.	Duolingo public company; music-specific metrics pending.	Shows music can be part of broader daily learning habit platforms.	High

Driver	Type	Current Signal	Audience Reach	Why It Matters For Yousician	Source Confidence
GarageBand / Apple creation	Creation ecosystem	Free creation and recording tools in Apple ecosystem.	Preinstalled / free Apple creative software; exact active usage pending.	Lowers the barrier from practice to making music.	High
Ableton Learning Music	Creation education	Browser-based music-making lessons and DAW education.	Free learning surface from major DAW brand.	Connects casual music learning to production concepts.	High
TikTok Year in Music	Cultural signal	Annual top artists, tracks and music trends.	2025 TikTok source says 8 of 10 Billboard #1s had a TikTok viral moment first.	Helps identify songs/artists that may drive beginner learning demand.	High
Google / YouTube AI music policy	AI platform signal	Dream Track and Lyria experiments with platform and rights implications.	Experiment / platform policy; adoption data pending.	Important for AI-generated practice and creator content boundaries.	High

Awards And Funding: Operational Tracker

Awards

Award Name	Organizer	Category Fit	Deadline Status	Effort Level	Priority	Immediate Next Step	Decision Needed
Apple Design Awards	Apple	Innovation, Interaction, Inclusivity, Delight and Fun, Social Impact	Closed / monitor next cycle	Medium	High	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
Google Play Best Of	Google Play	Best apps, games and category/editorial recognition	Monitor / validate current window	Medium	High	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
The Webby Awards	IADAS	Apps, Software & Immersive; Education; Music; AI	Closed / monitor next cycle	Medium	Medium	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
The EdTech Awards	EdTech Digest	Cool Tool, learning product, skills, mobile learning	Closed / monitor next cycle	Medium	Medium	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
Brandon Hall Excellence in EdTech	Brandon Hall Group	K-12, professional development, EdTech innovation	Monitor / validate current window	Medium	High	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
WorldWiDE EdTech Awards	WorldWiDE EdTech	Equity, impact and education technology	Closed / monitor next cycle	Low	Low	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
Learning Technologies Awards	Learning Technologies	Digital learning, mobile learning, learning platform	Monitor / validate current window	Medium	Medium	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
SXSW EDU Launch	SXSW EDU	Education startups and learning innovation	Monitor / validate current window	High	Medium	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
Fast Company World Changing Ideas	Fast Company	Education, apps, AI/data, consumer products	Monitor / validate current window	Medium	Low	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
TIME Best Inventions	TIME	Apps/software, AI, education, consumer technology	Monitor / validate current window	Medium	Low	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
NAMM TEC Awards	NAMM Foundation	Music technology and technical excellence	Monitor / validate current window	Medium	Medium	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.
Tom's Guide AI Awards	Tom's Guide	Consumer AI, productivity, personal tech, future tech	Closed / monitor next cycle	Low	Low	Assign owner, confirm current deadline, collect product screenshots/video and evidence of learning impact.	Submit this cycle, monitor next cycle, or deprioritize.

Funding

Funding Source	Geography	Funding Type	Deadline Status	Funding Amount Or Range	Effort Level	Immediate Next Step	Decision Needed
Business Finland R&D and piloting	Finland	Grant/loan RDI funding	Reviewed 2026-06-11 / open funding services	Varies by company size and instrument.	Medium	Screen current Business Finland RDI routes, including the 2026 Sprint pilot context, and decide whether to prepare a Yousician concept note.	Pursue, monitor, partner-led only, or deprioritize.
Business Finland Co-Innovation	Finland	Collaborative RDI funding	Reviewed 2026-06-11 / call listed open	Project-specific.	High	Validate consortium fit with Business Finland funding pages and identify any university/research partner before preparing effort estimates.	Pursue, monitor, partner-led only, or deprioritize.
EIC Accelerator	EU	Grant and equity	Current validation required	Grant funding plus possible equity; exact cap per call.	High	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partner-led only, or deprioritize.
Horizon Europe Cluster 2	EU	Research and innovation grant	Current validation required	Topic-specific budgets.	High	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partner-led only, or deprioritize.
Creative Europe MEDIA - Video Games and Immersive Content	EU	Lump-sum grant	Current validation required	Up to EUR 200,000; 60% funding rate shown in public call summaries.	High	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partner-led only, or deprioritize.
EIT Culture & Creativity	EU	Innovation and ecosystem funding	Current validation required	Call-specific.	Medium	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partner-led only, or deprioritize.

Funding Source	Geography	Funding Type	Deadline Status	Funding Amount Or Range	Effort Level	Immediate Next Step	Decision Needed
Erasmus+ Cooperation Partnerships	EU	Education cooperation grant	Current validation required	Typically fixed lump sums by project type.	High	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.
Digital Europe Programme	EU	Digital capacity funding	Current validation required	Call-specific.	High	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.
Google Play Apps Accelerator	Global / platform	Accelerator / platform support	Current validation required	Non-dilutive support rather than grant; benefits via mentorship/distribution.	Medium	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.
AWS Activate	Global	Cloud credits and startup support	Current validation required	Credits vary by tier.	Low	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.
NVIDIA Inception	Global	Startup program / technical support	Current validation required	Benefits/credits/support vary.	Low	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.
Finnvera / Tesi growth finance	Finland	Loan/guarantee/equity ecosystem	Current validation required	Instrument-specific.	Medium	Assign owner, validate eligibility with funder page, estimate effort, and decide whether to prepare concept note.	Pursue, monitor, partnered only, or deprioritize.

Relationship Completion Layer

Internal relationship status not yet captured in this dataset. To be completed by Yousician.

This is not an external market claim. It is an internal completion layer for owner, history, sensitivity and next step.

Data Gaps And Validation Needs

Gap	Status	Detail	Priority	Next Action	Owner Placeholder
Appfigures metrics	Blocked / credentialed export required	Revenue, downloads, ranks, ratings velocity, country mix and 12-month trends remain pending unless populated from a credentialed Appfigures export.	Critical	Export the Appfigures request pack and run scripts/import_appfigures_export.py with --credentialed.	Yousician / Appfigures credential owner
Internal relationship status	Blocked / internal owner input required	No internal relationship ownership, history or sensitivity has been assumed. Relationship fields are prepared for Yousician completion.	Critical	Chris or assigned Yousician owners complete relationship owner, status, sensitivity and last-contact fields.	Chris / Yousician owners
Private company ownership and revenue	Partially validated / paid database or direct validation required	Public source status is captured, but ownership, investor history and revenue for private players require Crunchbase, PitchBook, Dealroom or direct validation.	High	Run a paid-database validation pass for private companies before investor/board usage.	Research owner TBD
Influencer multi-platform reach	Partially complete / platform export required	YouTube reach is included where visible. TikTok, Instagram and average views remain marked as pending platform export for campaign planning.	High	Use YouTube/TikTok/Instagram channel exports or creator tools to fill current reach and average-view fields.	Creator/partnership owner TBD
Traffic and SEO	Blocked / Similarweb or analytics-grade export required	Web traffic for song/practice ecosystems, teacher platforms and media drivers requires Similarweb or a comparable analytics export.	Medium	Run Similarweb export for priority domains and label it as public/third-party traffic estimate.	Research owner TBD
Awards and funding deadlines	Operationalized / quarterly refresh needed	Awards and funding rows now contain deadlines, effort, fit and immediate next steps; date cycles should still be refreshed quarterly.	Low	Review deadlines at the start of each quarter and assign an ops/comms owner before submission decisions.	Ops / comms owner TBD
User research linkage	Blocked / Confluence research-database access required	Market signals should be linked back to Yousician user research before turning observations into recommendations. This pass does not have Confluence research database access.	Medium	Search the Yousician User Research Database for guitar beginner motivation, FTUX, churn, pricing and competitor studies and add study links to the report appendix.	Research / strategy owner TBD

Layout QA And Presentation Fixes

Surface	View Or Slide	Viewport	Issue Found	Fix Applied	Qa Status	Qa Artifact
Dashboard / narrow browser	Database	690 x 915	Nine-column database table collapsed and squeezed words vertically on narrow viewports.	Table remains available on wider screens; narrow screens now use readable database record cards.	Passed post-fix overflow scan	database_record_cards_layout_fix_v3_2_2.png
Dashboard / narrow browser	Overview, Key players, One-pager, Relationships	690 x 915	No material text/container overflow found after latest scan.	No additional fix required.	Passed post-fix overflow scan	Browser QA scan
Executive deck	Appfigures, Market Moves, Evidence QA	Slide contact sheet	Slides were too table-like for executive reading at thumbnail size.	Converted to executive cards and callouts; retained detailed tables in workbook/report.	Improved in rebuilt deck	executive_summary_deck_contact_sheet_v3.2.png
